An investigation deviloped the fact that the premises, No. 1317 F street, occupied by Mrs. Armstrong, had been entered by a burglar, who had effected an entrance by approaching the rear of the house through the vacantiota-ijoining, and, climping up one of the posts of the veraindab, the thief thoroughly ransacked the rooms of Representative Robinson, of Ohio, who is an inmate of the house, and, after making up a bundle of plunder, proceeded to empty a bottle of brandy which the Buckeye legislator had on hand for medicinal purposes only. He was just preparing to depart with his swag, when he was discovered by the indiv of the house, who proceeded to turn in an alarm in the manner above indicated. The hold burglar stuck his lingers in his ears and fied, leaving his shoes behind him, which were confiscated by the police, who put in an appearance about half an hour afterward.

Harris obtained possersion of it and took out the money which it contained. He afterward wrote Brocks letters sixing for money, and signing Martha Hackley's name to them. The case was postpened until next Tuesday to enable Martha Hackley to be found, as she is a most important witness in the case. It is probable that criminal charges may also be preferred against Costello for his connection with the matter.

THE STAR-ROUTE TRIAL

Admission of Walsh's Testimony. In the star-route trial yesterday Mr. Ingersoll pened the argument for the defense on the question of admitting John A. Walsh's testimony. Mr. Incresolt argued at great length, quoting many an horitles in support of his position, that the de-claration of a co-conspirator cannot be given in evidence against his co-defendants until the con-

evidence against his co-defendants until the con-spiracy has been catabilished; that a man's con-fession is not admissible as against himself until the conspiracy has been otherwise established, and that a declaration not accompanying an act done for the purpose of the conspiracy is only a confes-sion, and for that reason cannot be admitted. Ad-mitting even, for the sake of argument, that test-mony had been adduced to prove the existence of a conspiracy, he claimed that Brady's declaration was not made in furtherance of the conspiracy or accompanied any act relating to it.

MR. WILSON THEN STOKE,
saying that the government had conceded that the testimony was not competent against any defendant except Brady, and the question at issue was whether it was competent against him. It was talle to say that the testimony could be used only against Brady, for unless it showed that he was corrupted by his co-defendants it was worthless testimony. He maintained that It was not a part of the res gests of the case and had no connection with it. Mr. Henkle followed Mr. Wilson, He said be understood Judge Wylle to have said that a prima facte case had been made out. Judge Wylle disclaimed this, and said it was assumed to save time and lator. The question was not, to be taken from the Jury. He claimed that the evidence was incompetent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to prove the conspiracy, and could only be competent to that, for it was not pretended that the confession conformed 1, any one of the averments as they were specifically faid in the indictment. CLOSING ARGUMENT FOR THE PROSECUTION.

He claimed that sufficient evidence had been introduced to prove the existence of a conspiracy; the conspiracy being established the confession of a party is evidence against himself. Mr. Merrick conspiracy, Judge Wylie interrupted the speaker to say that the same rules of evidence that applied at the beginning of the case applied now, the question was whether a man's confession will bring him into a conspiracy with other; a question, said Judge Wylie, not depending upon the existence of a conspiracy Mr. Merrick then resumed his argument. At his conclusion, Mr. Chandier read a number of authorities to show that they were capable of a different interpretation to what Mr. Merrick had put on them. The court then adjourned.

THE WOUNDED ARTILLERYMAN. THE WOUNDED ARTILLERYMAN.

### Col. Amos Webster's Indorsement Upo

Major Hahneman's Report. Major Hahneman a couple of days since for-warded to Col. Amos Webster, adjutant-general of the District militia, his report upon the accident to Cannoneer Sutton, on July 4, when the District of Columbia artillery was firing the national salute. The facts stated are those substantially heretofore published in Thir Republicas. Colonel Webster yesterday sent the report to the District Commissioners with the following indorsement:

The within communication and its inclosures are respectfully submitted to the honorable Commissioners of the District of Columbia for their information and consideration. It appears that under cover of the permit issued to J. R. Hahneman a salute was fired on the 4th instant, which resulted in the serious and permanent injury to a gallant member of the artillery school. I would suggest that the honorable Commissioners refrain he District militia, his report upon the accident

gallant member of the artillery school. I would suggest that the honorable Commissioners refrain from issuing permits of like character, and that hereafter all orders for firing salutes emanate from headquarters. It will also be observed that at the instance of J. R. Hahneman, the permit was issued for an entertainment (which looks like a subterfuge) for the purpose of a "grand artillery salute and soirce." the proceeds of which were to be used for a religious or charitable purpose. The result is well known. This being the second occurrence of a like nature whereby a "citizen soldier" has been seriously wounded by the premature discharge of a gun, I would suggest that the method of double sponging be resorted to. This method has been in operation for many years in the French service, and is pronounced by artillerists to be a complete protection against premature discharge, and if protection against premature discharge, and if dopted by the artillery school will remove all ear of such casualties in future.

## A GIFT BY NEW JERSEYMEN.

in Agreeable Surprise to Governor Newell, of Washington Territory. The New Jersey residents of Washington sur prised ex-Governor Newell, of New Jersey, at the residence of W. H. Wikoff, esq., New York avenue last evening, and presented him with a valuable gold watch and chain. The presentation speech gold watch and chain. The presentation speech was made by Dr. A. P. Fardon, who referred in eloquent terms to the Governor's professional and political career, as physician, Congressman, Goyernor of New Jersey and Washington Territory, and also to the fact of his being the father of the Life-Saving Service of the country, by which the lives of 16,000 human beings have been saved, as a slight token of esteem and appreciation of his valuable services to the people of his native State and the Nation. The Governor responded in his usual cloquent manner, giving an interesting description of the great northwestern country on the Pacific, and particularly the Territory of Washington. After warm hand-shaking and good wishes of prosperity and happiness, the company dispersed. The watch is a very fine one, and bears the following inscription: "Presented to Hon, William A. Newell, governor of Washington Territory in a few days.

Sudden Death. John Magwire, esq., died suddenly of heart disease, after a few days illness, on Wednesday morning, at his rooms, 942 F street N. W., in the morning, at his rooms, 942 F street N. W., in the 78th year of his age. Mr. M. was an old and prominent resident of St. Louis, Mo. He came here in April to presecute some claims, and had General Ewing retained as his counsel. He was one of the most influential members of the Greenback party, also an honored member of the Catholic Church. Mr. Magwire leaves a widow and one daughter, who is the wife of the gallant General E. A. Carr, U. S. A. General Carr happened in the city, and at once took charge of his remains, had then prepared, and left has inght with them for his home in St. Louis. Mrs. Carr, who is in Chicago, will meet her father's remains in St. Louis.

A Singular Accident.

Yesterday afternoon Mr. Thomas Conolly, the inventor of an improvement on the telephone, was lighting a pipe which he had recently filled with tobacco, when it suddenly exploded, badly injuring his face and eyes. The supposition is that either a carridge or some loose gunpowier got in the tobacco and did the mischief.

NEW BONDS AND BANK-NOTES.

Conclusion of the Arguments as to the Description of the New 3 Per Cent. Bonds and the National Bank Currency. Immediately the act authorizing the funding of the continued 356 per cent, bonds into 3 per cents, was passed the Secretary of the Tressury directed the Chief of the Bureau of Engraving and Print-ing to prepare models for the new bonds and sub-mit them for his approval. This was done, and the places of some of them have already been made and the printing commenced. The bonds will be registered only, and of the denominations of \$50, \$190, \$500, \$1,000, and \$10,000. The face of the \$50 will have in the upper center a portrait of ex-Secretary of the Treasury Femenden, with a lathe-work counter containing the denomination on either side. In the lower center will be a picture of the Treasury Department building. Over the head of Fessenden, forming the arc of a circle, are the words.

THE BACKS OF THERE BONDS

THE BACES OF THESE BONDS
will be different from any that have ever been
made. On the first fold will be a large denomination lathe-work counter; on the second
will be, first, the act authorizing their issue,
tnen an oval denomination lathe-work counter, under which will be the number of
the tond. Then follows the words, "United
States Thee per cent. L'an of 1882, Transfer,
No.—, Original date—, and Original number—"
thus making a complete brief of the bond. This
form of brief is Secretary Folger's own l'ea, and its
convenience will readily be son. The remainder
of the back is occupied by the regular form of
transfer, which is found on all registered bonds.
The back will be printed in the following colors:
\$50, green; \$100, blue; \$500, red; \$1,000, brown, and
\$10,000, black.

NEW MATIONAL BANK NOTES.

With the passage of the national banking act, suthorising the national banks whose charters had or were shortly to expire, to continue their organizations within two years, it was determined by Secretary Folger to make new notes which should present additional obstacles to the counterfeiters. As the 55 note was the one most generally selected, an entire new model for this note was prepared by Mr. George W. Casilear, the superintendent of the engraving division, which is as follows: On the left is a large portrait of expresident Garfield, above which is a small lathework denomination counter, and the charter number of the bank is repeated six times in the border. The usual title and story fills up the center, in the denominations of \$10, \$20, \$30, and \$100 no change has been made in the vignettey, but the charter number is repeated in the border as in the \$5 notes. NEW NATIONAL BANK NOTES.

ms in the \$5 notes.

THE BACKS OF ALL THE NEW NOTES
will be printed in chocolate brown, instead of
green, as bevetofore, and in the center, where the
large pictures have been placed, there will be a
large series of lathe work counters, across which
will be printed in some color yet to be selected the
charter number of the bank, each figure resting
upon a large lathe-work counter. The national
banking act authorized the issuing of gold
certificates, and the models for these are
now being prepared by Mr. Casilear. As
the continued \$35 per cent, bonds amount
to about \$400,000,00 or about one-lourth of the
entire government debt, it is desirable that the
new three per cent, should be ready for use as
soon as possible, and the work up in then is being
rapidly pushed. In regard to the national banks,
it is stated that the charters of about three hundred and fifty will have to be immediately renewed, and of course these will all have to take
the new notes under their renewals. New banks
which have been organized since the passage of the
act of July 12 last will also be furnished with the
new style of notes. Work upon these is also being
expedited, the engraving, printing, and other
divisions of the Bureau of Engraving and Printing working beyond the regular hours to have the
notes ready for delivery to the Comptroller of the
Currency by Angust 1.

UNSETTLED CLAIMS THE BACKS OF ALL THE NEW NOTES

### UNSETTLED CLAIMS

To the Editor of THE REPUBLICAN: LEESBURG, VA., July 17, 1882.—As your paper is widely circulated and evidently takes an interest in all that concerns the District of Columbia, I beg leave to submit the following for your col-umns: It is upward of two years since a District claims bill was prepared that provided for the setunins: It is upward of two years since a District claims bill was prepared that provided for the settlement of two classes of claims against the District of Columbia, viz: For damages to private properly and contractors claims; all of said claims arising out of the public improvements of the District of Columbia. At the eleventh hour important changes were made in the character of the bill whereby the interest or claims of private property-owners were sacrificed, while those of the contractors alone were provided for. Two years have clapsed, during which the private property-owners have anxiously awaited some adjustment and settlement of their long-outstanding claims for damages to their several properties, and an amendment to the District claims bill is proposed, which again results in passing over the interests of private property-owners, and increasing the compensation heretofore allowed to the contractors-viz: by converting their \$3.65 bend into a 6 per cent. bend. I observe a disposition in Congress to foster special private claims to the exclusion of those of a general and equally meritorious character. There is a bill (Senate bill No. 1817), which, if passed, would be of great benefit to the clizens of the District. It asks for no money; but simply for such legislation by Congress as will enable those persons as have claims for damages, &c., to litigate them in the Court of Claims. There seems no good reason why all parties who think themselves aggrieved should not be allowed the opportunity to obtain their rigits in that court of the country which was originally established for that very purpose. All partial legislation is colous, while laws that are general and equal in their provisions cannot be objected to. Permit me, Messrs, Editors, in conclusion, to commend this view of the subject through your valuable journal to the attention of Congress.

## FINALLY DISPOSED OF.

pany's Property. The Columbian Bank Note Company's property on Pennsylvania avenue, near Ninth street, was again sold at auction yesterday evening by Thomas J. Fisher & Co. The building was purchased by Hallet Kilbourn for \$29,950, the machinery, stock &c., by John W. Corson, of the banking l &c., by John W. Corson, of the banking house of H. D. Cooke & Co., for \$12,225. The building was sold about two weeks ago to the same party for \$25,090, subject to ratification by the stockholders. At that time, however, the engine and builer was not included, which went with the property yesterday, and these are said to be worth the difference. At the former sale the presses, engraved stock, &c., sold for \$4,290, while yesterday this personal property brought \$12,225. The total amount realized yesterday was \$9,975 in excess of the sum bid at the first sale, and the property, both real and personal, of the Columbian Bank Note Company is now finally disposed of.

The severe stroke of lightning about 7:30 Wednesday evening struck and instantly killed a little son of Mr. Joseph Randall, living at 2051 Thirty-fifth (Fayette) street. The little boy, Charlie, had taken refuge from the storm under a tree but a short distance from home, when the lightning struck the tree, stripping the bark from it, and, glancing, struck him on the left temple and ran down his left side. With the exception of a small spot on the temple and an impression resembling a small tree on the left breast, no outward effects of the stroke were visible. Drs. Bowie, Tyler, and Peter were hastily aummoned, and pronounced that death had been instantantaneous.

Owing to the severe illness of his wife, Mr. Daniel Glaco, of Engine Company No. 5, was hastily aummoned to her at Berkeley Springs, to which place she had gone in the hope of receiving benefit to her bealth.

The New Postmaster of Alexandria.
Colonel David A. Windsor, whose appointment
to be postmaster was amounteed in Tirk Repunicas, is a leading citizen of Alexandria, who has been its leading man in Alexandria. A native of that city, vigorous and prompt in business, he has shown the same traits in public matters since he has taken prominent part in them, and will doubtless make an efficient postmaster. He long conducted (Winday & Ford) the extensive brick works on the hills between the Eastern Branch and the Capitol, and bas boilt a score or more of fine houses in the northwest section of Washington. He is now in the lumber business on Fourteenth street, near Olilo avenue, and largely interested in building here. Colonel Winders will be the twelfth postmasser. His predecessors have been, Robert McGrea, 1776; James McGrea, 1785; Goorgo W. Craix, 1861; George Gipin, 1891; Thomas P. Gilpin, 1814; Daniel Bryan, 1821; Turner W. Asiby, 1853; William D. Massey, 1851; Nicholas P. Triss, 1870; William N. Berkley, 1874; Lewis McKeurie, 1876.
